JAQUELINE MARROQUIN

Grand Rapids, MI | jaqueline.marroquiin@gmail.com

AI graduate student with a B.S. in Information Systems and professional experience in enterprise IT, PowerShell automation, SQL reporting, and technical support. Seeking a software development or AI internship.

EDUCATION

University of Michigan-Flint | M.S. Artificial Intelligence, Expected Graduation Dec 2027
University of Utah | B.S. Information Systems, May 2022

TECHNICAL SKILLS

Programming & data: Python, SQL, PowerShell, HTML; foundational JavaScript and CSS
Tools & systems: Git/GitHub, Google Colab, Active Directory, Microsoft 365, BMC Remedy
Languages: Bilingual – English and Spanish

SELECTED ACADEMIC PROJECT

Heart Disease Classification | Python, Google Colab
• Compared five classifiers using imputation, encoding, and scaling; tuned hyperparameters on validation data and evaluated test-set F1 scores, prediction errors, and learning curves.
Technical Troubleshooting Question Classification | Group Project, In Progress
• Collaborate on a text classification project assessing whether questions contain enough detail to troubleshoot. Work with teammates to organize project tasks, develop labeling guidelines, and plan how to evaluate model performance.

PROFESSIONAL EXPERIENCE

Educational Technology Coordinator | Chandler Woods Charter Academy
Belmont, MI | July 2026–Present
• Provide instructor IT support, troubleshoot and repair Chromebooks, and escalate complex issues to the service center.
• Occasionally assist the STEM/technology teacher with curriculum preparation and classroom activities.

IT Specialist | City of Wyoming
Wyoming, MI | April 2025–September 2025
• Assisted in developing and improving an internal HTML interface that automated Active Directory account creation through PowerShell workflows.
• Provided Tier 2–3 support across Police, Fire, Court, and City Hall; resolved hardware, software, and network issues.
• Audited IT assets, ordered and deployed hardware, and tracked equipment throughout its lifecycle.

Enterprise IT Support Analyst II | Berkshire Hathaway Energy
Salt Lake City, UT | December 2022–January 2025
• Tested and developed IT workplace forms in BMC Remedy; supported data normalization, system health checks, and audit preparation.
• Helped implement and test system integrations for new affiliates using Agile methods, coordinating with developers, vendors, and business teams.
• Coordinated software approvals across IT teams, addressing security requirements, budgets, license procurement, and deployment readiness.

IT Specialist | Audio Enhancement
West Jordan, UT | November 2020–November 2021
• Supported 100+ employees; administered Active Directory and Microsoft 365 accounts and assisted with Windows server, switch, and equipment deployments.
• Assisted with laptop and monitor replacement projects, tracked IT assets, and created standard operating procedures
